Allison, here are the last changes to the pesticides section. This is using a slightly older version, so you'll need to add these changes to your latest version. The areas with changes are highlighted in yellow with the changed language. They include the following using the all markups view:

- p. 16 – deleted reference 64.
- p. 17 – removed NOAA BiOps reference and replaced with EPA BE on 2,4-D. BiOp reference deleted. New BE citation added in for Ref. 81.
- P. 19 – 1st partial paragraph, changed language at end of paragraph re: registration review process
- p. 19- 2nd paragraph on page, changed first sentence re: states going beyond the FIFRA label requirements.
